Policy No. 12-15-1

Tree Planting Policy

The Village Council finds that when selecting trees to be installed in the Village's public right-of-way (ROW), native trees should be given priority whenever possible, in order to provide the greatest benefit to the environment, including providing food and nesting sites for native birds, mammals, and beneficial insects, and to better avoid loss of trees through disease.

For this reason, it is the policy of the Village that native trees should be given priority in future plantings within the public ROW to the greatest degree possible, taking into account constraints related to species availability, location of the planting, and the Village budget. For the purposes of this policy, "native tree" means a tree listed in the Pennsylvania State University Landscape Trees Factsheets, 3rd Edition, as amended.

Policy Number: 12-15-1
Introduced: December 17, 2015
Action/Adoption: December 17, 2015
Effective Date: December 17, 2015
